RE: AST Student Board Member

I am pleased to announce that Lisa Hurwitz, Delta Phi Chapter member from New York University, has been selected as the only student member of the HazingPrevention.Org Board of Directors for 2007! Lisa was chosen at the recommendation of David Stollman, also on the Board of the new non-profit, and the Advisor of the Delta Phi Chapter. I am confident Lisa will be an asset to the organization as we continue to expand our programs and services in an effort to put an end to hazing.

The mission of the organization is to empower individuals to expect and create hazing-free environments in our schools, organizations, teams and workplaces. Our two main programs – The National Hazing Symposium and National Hazing Prevention Week – were established four years ago, and are well-known and heavily supported. This summer, we are planning two in-depth training programs for both front-line and seasoned professionals and volunteers.

Thank you for your development of Lisa as a strong leader and member of a hazing-free organization so that she could benefit our organization as a board member. We are looking forward to working with her!
